

## Unit 4 Lesson 3: Insectivores

### Bat Math Challenge

Handout 1

**Most bats feed on insects. Some can catch and eat over 1,000 fruit flies in an hour.**

If there are 24 hours in a day, how many fruit flies can one bat eat in a day?

How many would one bat eat in a week?

How many days would it take for one bat to eat over a million fruit flies?
